Feng Shui is a design system for arranging your surroundings in harmony and balance with the natural world around you. Your surroundings have a powerful effect on what you attract into your life. When the energy around you is blocked or imbalanced, your prosperity, relationships, health, and well-being can be affected, but when the energy is balanced, good things naturally flourish in your life. Feng Shui provides a system for unblocking this stuck energy and a roadmap for directing positive energy to your front door. Carol demystifies this 5,000-year-old design tradition and shows real estate professionals how to use Feng Shui to help close the deal.
